

## DAY 1 NOV 29

DAY 1

9.00  
9.10  
9.20  
9.30  
9.40  
9.50  
10.00  
10.10  
10.20  
10.30  
10.40  
10.50  
11.00  
11.10  
11.20  
11.30  
11.40  
11.50  
12.00  
12.10  
12.20  
12.30  
12.40  
12.50  
13.00  
13.10  
13.20  
13.30  
13.40  
13.50  
14.00  
14.10  
14.20  
14.30  
14.40  
14.50  
15.00  
15.10  
15.20  
15.30  
15.40  
15.50  
16.00  
16.10  
16.20  
16.30  
16.40  
16.50  
17.00  
17.10  
17.20  
17.30  
17.40  
17.50  
18.00

Exhibition

### IoT

Developing for the IoT <i>Available for all ticket types</i>	IoT Innovations & Technologies <i>Available for all ticket types</i>	Connected Industry <i>Available for Ultimate &amp; IoT Gold Passes</i>	Data & Security <i>Available for Ultimate &amp; IoT Gold Passes</i>
Chair's welcome and opening comments	Chair's welcome and opening comments	Chair's welcome and opening remarks	Chair's welcome and opening comments
Engineering the IoT – Machine Learning and Big Data for Smart Product Development	 <b>Bluetooth®</b> Dedicated Session The Expanding Role of Bluetooth in the IoT	Keynote: What is the best route into the IIoT?	Keynote: Data is everything
Keynote Panel: The future of IoT development		Panel: Creating a competitive edge with the IIoT	Panel: IoT data analytics for intelligent decision making
Navigating the last 100m of the IoT: Edge Connectivity Best Practices		<b>Networking Break</b>	Transforming the Edge
<b>Networking Break</b>	<b>Networking Break</b>	Industrial Internet of Things and the OT/IT Convergence	<b>Networking Break</b>
Wireless Connectivity (IoT) Testing Challenges and Considerations	Connect your IoT data to a machine learning API in 3 easy steps	Panel: Manufacturing and Smart Factories of the future	Harnessing the Power of Real Time Analysis in IIoT
Panel: Testing in the IoT ecosystem	Consumer IoT – accelerating adoption & monetization	Process Automation – moving beyond IoT to intelligent objects	Case Study: Darktrace
	Safe & Dependable IoT Future: Securing Today's Processors	<b>Networking Break</b>	<b>Networking Break</b>
<b>Networking Break</b>	<b>Networking Break</b>	<b>Networking Break</b>	<b>Networking Break</b>
Keynote: Massive IoT from the Telco perspective	Panel: Creating a seamless connected building ecosystem: in the home, hospitality and the workplace	Bringing IoT into Industrial Environments	Preparing for the future of IoT security
Panel: Discovering the world of connectivity – Unlocking the promise of the IoT	Smart homes, smart consumers?	Keynote Panel: Connectivity for M2M devices; LTE, NB-IoT and beyond	Keynote Panel: An E2E approach to tackling data security challenges of the IoT
Mesh systems – the next thing in IoT?	IoT Innovation: OPC Foundation	Beyond the factory floor – supply chain management	Information Security in IoT Contracting
	IoT Innovation: Wearables	<b>Networking Break</b>	<b>Networking Break</b>
<b>Networking Break</b>	IoT Innovation: Security	<b>Networking Break</b>	<b>Networking Break</b>
Which is best for your IoT application: LTE, LPWAN or NB-IoT?	<b>Networking Break</b>	Panel: Predictive Maintenance for transforming field services and asset management	Panel: The practicalities and challenges of securing IoT network infrastructure
IoT Reality Check: Starting and Scaling the Journey	IoT Innovation: AR/VR in Enterprise	Case Study: Industrial Internet of Things in Action	Case Study: Data Protection in USA Market
<b>Networking Break</b>	IoT Innovation: Payments	Connecting legacy equipment for fast ROI in IoT	Overcoming privacy challenges within a complex ecosystem
Using Artificial Intelligence and the IoT to track Volcanic Activity, Flooding, and Wildfires			
MeetUp 1	MeetUp 2		

### AI

AI in the Enterprise <i>Available for Ultimate &amp; AI Gold Passes</i>	AI for Developers <i>Available for all ticket types</i>
Chair's welcome and opening remarks	Chair's welcome and opening remarks
Keynote: An Introduction to Business Intelligence	Keynote: The AI and Machine Learning Revolution.
Keynote Panel: The application of Deep Learning within an Enterprise	Panel: Data and ML architecture
<b>Networking Break</b>	<b>Networking Break</b>
How to Avoid Big Data Discrimination	Case Study: Modeling Sequential Decision Making in Team Sports using Deep Imitation Learning
Case Study: Connecting Deep Learning with the IoT	AI powering missions to Mars
Panel: Building an AI strategy for Enterprise	Case Study: PiggieBank
	AI Tools & Techniques
<b>Networking Break</b>	<b>Networking Break</b>
Afternoon Keynote: AI for Everyone	Panel: Driving Digital Transformation through AI & DL development
Panel: Big Data – Creating Intelligent Data Models	Deep Machine Learning in the Embedded Space
Build AI for Next Generation Cyber Security	<b>Networking Break</b>
<b>Networking Break</b>	Investor Panel: Financing your AI Innovation
Case Study: Industrial AI & DML	Using Deep Learning with Intel BigDL for optimized personalized card linked offer
How China is Thinking About AI and Why You Should Care	
Panel: AI for Social Good	Start up Showcase- Using AI & Machine Learning in the Real World

### Blockchain

Developing Blockchain Applications <i>Available for all ticket types</i>	Blockchain for Enterprise <i>Available for Ultimate &amp; Blockchain Gold Passes</i>	ICOs and Cryptofinance <i>Available for Ultimate &amp; Blockchain Gold Passes</i>
Chair's welcome and opening remarks	Chair's welcome and opening remarks	Chair's welcome and opening remarks
Keynote: Understanding how blockchain applications are built	Keynote: Understanding Blockchain Technologies & Markets	Keynote: How to future proof your Initial Coin Offering
Panel : How can developers make the most of the blockchain opportunity?	Keynote: Building Cloud based blockchain development environments	Panel: Initial coin offerings, token sales and crowd funding
Treasures of the game industry. Useless items to become priceless.	Could Blockchain be the New BetaMax?	<b>Networking Break</b>
Panel: Building apps on the Ethereum Platform	Panel: Building enterprise ethereum applications	<b>Networking Break</b>
Case study: Smart contracts embedded in IoT-enabled devices	<b>Networking Break</b>	Defining your offer and shaping the sale
<b>Networking Break</b>	<b>Networking Break</b>	Panel: Learning from ICOs offerings, key take aways
Securing Blockchain applications	Panel: Gvnt Blockchains – Examining public services & the opportunity blockchain tech presents	Keynote: ICO's & Cryptofinance
Case study – Toyota: Using blockchains in autonomous vehicles	Case Study: GE & digital transf. in a multinational corporation	<b>Networking Break</b>
Case study: Building apps using Disney's dragonchain blockchain	<b>Networking Break</b>	<b>Networking Break</b>
<b>Networking Break</b>	<b>Networking Break</b>	<b>Networking Break</b>
Panel: Blockchain from the investor's perspective: A VC view of the marketplace	Keynote: Blockchain and smart contracts as a part of eSports and Gaming ecosystem	ICO Pitches
Blockpass : A Passport for a Connected World	Panel: Blockchain in the healthcare system	Panel: The rise of Crypto Capitalism – the changing role of VCs v's ICOs
Blockchain Applications for Compliance	Panel: What are the regulatory implications of using blockchain tech?	Keynote: Examining cryptocurrencies, and the rise of the internet of money
Generating wealth from your data by turning it into unique personal	<b>Networking Break</b>	Panel: Is Bitcoin best – what is the future of cryptocurrencies?
<b>Networking Break</b>	<b>Networking Break</b>	Keynote: The future of bitcoin and blockchain technologies
Panel: Blockchain as a service (Baas)	Panel: The challenges for the banking industry	Roundtable session: Pitches and ICO launches
Case study: Bext360 – coffee traceability from farmer to cup	Blockchain Intelligence – Machine learning algorithms and Blockchain technology	
Scalability of enterprise blockchain solutions	Panel: Blockchain for the music, gaming and entertainment industry	Round Up Session

DAY 1

9.00  
9.10  
9.20  
9.30  
9.40  
9.50  
10.00  
10.10  
10.20  
10.30  
10.40  
10.50  
11.00  
11.10  
11.20  
11.30  
11.40  
11.50  
12.00  
12.10  
12.20  
12.30  
12.40  
12.50  
13.00  
13.10  
13.20  
13.30  
13.40  
13.50  
14.00  
14.10  
14.20  
14.30  
14.40  
14.50  
15.00  
15.10  
15.20  
15.30  
15.40  
15.50  
16.00  
16.10  
16.20  
16.30  
16.40  
16.50  
17.00  
17.10  
17.20  
17.30  
17.40  
17.50  
18.00

## DAY 2 NOV 30

### IoT

### AI

### Blockchain

DAY 2

9.00  
9.10  
9.20  
9.30  
9.40  
9.50  
10.00

18.00

Exhibition

Developing for the IoT <i>Available for all ticket types</i>		IoT Innovations & Technologies <i>Available for all ticket types</i>		IoT in Enterprise <i>Available for Ultimate &amp; IoT Gold Passes</i>		Smart Transportation & Cities <i>Available for Ultimate &amp; IoT Gold Passes</i>		AI in Consumer & Digital Transformation <i>Available for Ultimate &amp; AI Gold Passes</i>		Bot & Virtual Assistant Development <i>Available for all ticket types</i>		Blockchain Technologies <i>Available for all ticket types</i>		Blockchain for Enterprise <i>Available for Ultimate &amp; Blockchain Gold Passes</i>		Transforming Financial Services <i>Available for Ultimate &amp; Blockchain Gold Passes</i>	
Chair's welcome and opening comments		Chair's welcome and opening comments		Chair's welcome and opening comments		Chair's welcome and opening comments		Chair's welcome and opening comments		Chair's welcome and opening comments		Chair's welcome & opening comments		Case Study: Blockchain technologies in the supply chain		Chair's welcome & opening comments	
Making Sense of the IoT – Protocols and Alliances		Keynote: Digitally transforming new industries using IoT		Using Hololens to drive process optimization for Enterprise		Panel: Urban Mobility – Creating smart transport systems		Keynote: How to Leverage AI in Digital Transformation		Keynote Panel: Realities of Bot & VA Development and Implementation		Keynote: Blockchain innovations of the last year and a peak of what's next		Panel: The role of Blockchain within supply chain management		Accelerating the Development of DLT through International Collaboration	
Panel: Creating a standards framework for IoT		Lessons we can learn from Insurance and IoT		Keynote Panel: IoT Technologies in Enterprise		Case Study: Satori		Panel: ChatBots – the next generation of messaging apps		Build a conversational agent in minutes with API.AI		Case Study 2		Panel: Blockchain and its application in the Energy market		Transforming Global Payments	
Keynote: Opening up the IoT		Panel: Future directions for the IoT in insurance		Keynote: People are the key 'intelligent asset' in the workplace		Networking Break		The role of AI/ML in Advertising & Marketing		Networking Break		Networking Break		IoT – Blockchain as the key enabler for realising the IoT vision		Panel: Cryptocurrency wallets	
Networking Break		Networking Break		Networking Break		Traffic management solutions for Smart Cities		Networking Break		Build a better bot with Analytics & Big Data		Case Study 4		Networking Break		Networking Break	
Panel: Funding your way into the World of IoT		Innovations and opportunities in connected health		Panel: Smart logistics for freight and fleet management		Keynote Panel: The next generation of connected cars and vehicles		Case Study: Using an algorithm to find out what luxury customers want		Chatbots – From Chat To Full-Serve Experience		Case Study 5		Panel: Smart Contract Management & Innovation		Transforming Token Sales	
Start Up Success Story - Yodiwo		Hearables – the next generation of IoT health wearable?		IoT and Remote Container Management		Case Study: Arity		Panel: The Revolutionising of Customer Experiences through AI		Inter Bot Communication – get ahead of the game		Decentralized: The re-invention of search.		Blockchain and the future of real estate		Panel: Peer to peer payments – the blockchain mobile payments revolution	
Start Up Success Story - Zerynth		Networking Break		Networking Break		Networking Break		Examining AI uses in Banking & Finance Services		Networking Break		Keynote: Red Belly, the unforkable blockchain		Case Study: Gospel – The First Practical Enterprise Application of Blockchain		Networking Break	
Start Up Success Story 3		Networking Break		Networking Break		Networking Break		Networking Break		Afternoon Keynote: AI and the future of drones		Blockchain for Telecommunications Networks		Panel: Insurance – Understanding the opportunities and threats for Blockchain in the Insurance industry		Transforming Wholesale Insurance	
Networking Break		Panel: Raising the bar – can IoT improve our fitness and performance?		Managing energy usage in Enterprise using IoT		Keynote: The Smart Citizen's role in creating a Smart City		Keynote: The Rise of the Virtual Assistant		Killer Robots, Smart Cyberweapons, and Supercharged Fake News: When artificial intelligence meets national		Case Study: Civic		Panel: Blockchain in non-governmental organisations		Transforming Reinsurance	
Keynote Panel: Monetisation – Unlocking the revenue potential		Case Study: Learning from the Players		Panel: Smart buildings and lighting		Panel: Driving investment in the Connected City		Panel: Predictive analytics for customer recommendations		Start up Showcase – Bots & VA		The Next Generation of Identity Verification Using the Blockchain		Case study: Mærsk and the revolution in container shipping		Panel: Building partnerships to help grow financial services blockchain solutions	
Consumer Protection – Your Questions answered		Networking Break		Networking Break		Networking Break		AI – Building Trust, Loyalty and Relationships		Case study: DECENT – Future of Digital Rights Protection		Panel: Identity management and verification on blockchain		Keynote: Humaniq: crypto-finance for the undocumented and unbanked		Panel: What does the future hold for Blockchain technology – where do we think we will be in 2030?	
Networking Break		Keynote Panel: How is the IoT shaping consumer-brand relationships in retail and beyond?		Smart Farming – growing new business opportunities		Sustainable smart cities						Case study: DECENT – Future of Digital Rights Protection					
Panel: Scale-able IoT Architectures and Interoperability		Case Study: Office as a Connected Device		Panel: Lessons learnt from the Oil and Gas industries in IoT		Panel: Connected Spaces – using IoT for public safety and increased quality of life											
Managing IoT devices
