

## DAY 1 NOV 29TH

NOV 29  
9.00  
9.10  
9.20  
9.30  
9.40  
9.50  
10.00  
10.10  
10.20  
10.30  
10.40  
10.50  
11.00  
11.10  
11.20  
11.30  
11.40  
11.50  
12.00  
12.10  
12.20  
12.30  
12.40  
12.50  
13.00  
13.10  
13.20  
13.30  
13.40  
13.50  
14.00  
14.10  
14.20  
14.30  
14.40  
14.50  
15.00  
15.10  
15.20  
15.30  
15.40  
15.50  
16.00  
16.10  
16.20  
16.30  
16.40  
16.50  
17.00  
17.10  
17.20  
17.30  
17.40  
17.50  
18.00

Exhibition

	IoT				AI		Blockchain		
	Developing for the IoT <i>Available for all ticket types</i>	IoT Innovations & Technologies <i>Available for all ticket types</i>	Connected Industry <i>Available for Ultimate &amp; Gold Passes</i>	Data & Security <i>Available for Ultimate &amp; Gold Passes</i>	AI in the Enterprise <i>Available for Ultimate Passes</i>	AI for Developers <i>Available for all ticket types</i>	Developing Blockchain Applications <i>Available for all ticket types</i>	Blockchain for Enterprise <i>Available for Ultimate Passes</i>	
9.00	Chair's welcome and opening comments	Chair's welcome and opening comments	Chair's welcome and opening remarks	Chair's welcome and opening comments	Chair's welcome and opening remarks	Chair's welcome and opening remarks	Chair's welcome and opening remarks	Chair's welcome and opening remarks	9.00
9.10	Engineering the IoT – Machine Learning and Big Data for Smart Product Development	 <p><b>Bluetooth®</b> Dedicated Session The Expanding Role of Bluetooth in the IoT</p>	Keynote: What is the best route into the IIoT?	Keynote: Data is everything	Keynote: An Introduction to Business Intelligence	Keynote: The AI and Machine Learning Revolution.	Keynote: Understanding how blockchain applications are built	Keynote: Understanding Blockchain Technologies & Markets	9.10
9.20	Keynote Panel: The future of IoT development		Panel: Creating a competitive edge with the IIoT	Panel: IoT data analytics for intelligent decision making	Keynote Panel: The application of Deep Learning within an Enterprise	Panel: Data and ML architecture	Panel: How can developers make the most of the blockchain opportunity?	Keynote: Building Cloud based blockchain development environments	9.20
9.30	Navigating the last 100m of the IoT: Edge Connectivity Best Practices		Networking Break	Transforming the Edge	Networking Break	Case Study: Modeling Sequential Decision Making in Team Sports using Deep Imitation Learning	Treasures of the game industry. Useless items to become priceless.	Blockchain for Enterprise	9.30
9.40	Networking Break		IT/OT convergence: the best strategy for the IIoT?	Networking Break	Networking Break	Case Study: Connecting Deep Learning with the IoT	Panel: Building enterprise ethereum applications	Panel: Building enterprise ethereum applications	9.40
9.50	Wireless Connectivity (IoT) Testing Challenges and Considerations	Connect your IoT data to a machine learning API in 3 easy steps Consumer IoT – accelerating adoption & monetization	Panel: Manufacturing and Smart Factories of the future	Harnessing the Power of Real Time Analysis in IIoT	How to Avoid Big Data Discrimination	Case Study: Smart contracts embedded in IoT-enabled devices	Networking Break	Networking Break	9.50
10.00	Panel: Testing in the IoT ecosystem	Safe & Dependable IoT Future: Securing Today's Processors	Process Automation – moving beyond IoT to intelligent objects	Panel: Blockchain – Building a chain of trust	Case Study: Building an AI strategy for Enterprise	Panel: Securing Blockchain applications	Panel: Building enterprise ethereum applications	Panel: Building enterprise ethereum applications	10.00
10.10	Networking Break	Networking Break	Networking Break	Networking Break	Networking Break	Case study: Building apps using Disney's dragonchain blockchain	Networking Break	Networking Break	10.10
10.20	Keynote: Massive IoT from the Telco perspective	Panel: Creating a seamless connected building ecosystem: in the home, hospitality and the workplace	Bringing IoT into Industrial Environments	Preparing for the future of IoT security	Afternoon Keynote: AI for Everyone	Panel: Driving Digital Transformation through AI & DL development	Panel: Blockchain from the investor's perspective: A VC view of the marketplace	Panel: Gvnt Blockchains – Examining public services & the opportunity blockchain tech presents	10.20
10.30	Panel: Discovering the world of connectivity – Unlocking the promise of the IoT	From IoT POC's to IoT products! Are customers prepared?	Keynote Panel: Connectivity for M2M devices; LTE, NB-IoT and beyond	Keynote Panel: An E2E approach to tackling data security challenges of the IoT	Panel: Big Data – Creating Intelligent Data Models	Deep Machine Learning in the Embedded Space	Quanta – A New Generation of Regulated Internet Gaming	Case Study: GE & digital transf. in a multinational corporation	10.30
10.40	Mesh systems – the next thing in IoT?	IoT Innovation: OPC Foundation	Beyond the factory floor – supply chain management	Information Security in IoT Contracting	Build AI for Next Generation Cyber Security	Networking Break	Case Study 7.	Panel: What are the regulatory implications of using blockchain tech?	10.40
10.50	Networking Break	IoT Innovation: Wearables	Networking Break	Networking Break	Networking Break	Investor Panel: Financing your AI Innovation	Case study: Turning your personal data and digital assets into unique property	Networking Break	10.50
11.00	Which is best for your IoT application: LTE, LPWAN or NB-IoT?	IoT Innovation: Security	Panel: Predictive Maintenance for transforming field services and asset management	Panel: The practicalities and challenges of securing IoT network infrastructure	Case Study: Industrial AI & DML	Using Deep Learning with Intel BigDL for optimized personalized card linked offer	Networking Break	Networking Break	11.00
11.10	IoT Reality Check: Starting and Scaling the Journey	IoT Innovation: AR/VR in Enterprise	Case Study: Industrial Internet of Things in Action	Case Study: Data Protection in USA Market	How China is Thinking About AI and Why You Should Care	Start up Showcase- Using AI & Machine Learning in the Real World	Panel: Blockchain as a service (Baas)	Panel: The challenges for the banking industry	11.10
11.20	Networking Break	IoT Innovation: Powering IoT Devices	Connecting legacy equipment for fast ROI in IoT	Overcoming privacy challenges within a complex ecosystem	Panel: AI for Social Good		Case study: Bext360 – coffee traceability from farmer to cup	Blockchain Intelligence – Machine learning algorithms and Blockchain technology	11.20
11.30	MeetUp 1	MeetUp 2						Panel: Blockchain for the music, gaming and entertainment industry	11.30
11.40									11.40
11.50									11.50
12.00									12.00
12.10									12.10
12.20									12.20
12.30									12.30
12.40									12.40
12.50									12.50
13.00									13.00
13.10									13.10
13.20									13.20
13.30									13.30
13.40									13.40
13.50									13.50
14.00									14.00
14.10									14.10
14.20									14.20
14.30									14.30
14.40									14.40
14.50									14.50
15.00									15.00
15.10									15.10
15.20									15.20
15.30									15.30
15.40									15.40
15.50									15.50
16.00									16.00
16.10									16.10
16.20									16.20
16.30									16.30
16.40									16.40
16.50									16.50
17.00									17.00
17.10									17.10
17.20									17.20
17.30									17.30
17.40									17.40
17.50									17.50
18.00									18.00

## DAY 2 NOV 30TH

DAY 2  
9.00  
9.10  
9.20  
9.30  
9.40  
9.50  
10.00  
10.10  
10.20  
10.30  
10.40  
10.50  
11.00  
11.10  
11.20  
11.30  
11.40  
11.50  
12.00  
12.10

Exhibition

### IoT

### AI

### Blockchain

Developing for the IoT <i>Available for all ticket types</i>	IoT Innovations & Technologies <i>Available for all ticket types</i>	IoT in Enterprise <i>Available for Ultimate &amp; Gold Passes</i>	Smart Transportation & Cities <i>Available for Ultimate &amp; Gold Passes</i>	AI in Consumer & Digital Transformation <i>Available for Ultimate Passes</i>	Bot & Virtual Assistant Development <i>Available for all ticket types</i>	Blockchain Technologies <i>Available for all ticket types</i>	Blockchain for Enterprise <i>Available for Ultimate Passes</i>
Chair's welcome and opening comments	Chair's welcome and opening comments	Chair's welcome and opening comments	Chair's welcome and opening comments	Chair's welcome and opening comments	Chair's welcome and opening comments	Chair's welcome & opening comments	Chair's welcome and opening
Making Sense of the IoT – Protocols and Alliances	Keynote: Digitally transforming new industries using IoT	Using Hololens to drive process optimization for Enterprise	Panel: Urban Mobility – Creating smart transport systems	Keynote: How to Leverage AI in Digital Transformation	Chair's welcome and opening comments	Case Study 1	Panel: Scalability of enterprise blockchain solutions
Panel: Creating a standards framework for IoT	Lessons we can learn from Insurance and IoT	Keynote Panel: IoT Technologies in Enterprise	Case Study: Satori	Panel: ChatBots – the next generation of messaging apps	Keynote Panel: Realities of Bot & VA Development and Implementation	Case Study: Blockchain technologies in the supply chain	Corda: a unique approach to distributed ledgers
Keynote: Opening up the IoT	Panel: Future directions for the IoT in insurance	Keynote: Lessons learnt from the Oil and Gas industries in IoT	Networking Break	Case Study: Future of travel: man vs machine.	Build a conversational agent in minutes with API.AI	Panel: How to Build a blockchain Fintech startup?	Panel: Blockchain and its application in the Energy market
Networking Break	Networking Break	Networking Break	Traffic management solutions for Smart Cities	Networking Break	Networking Break	Networking Break	Case Study: IoT – Blockchain as the key enabler for realising the IoT vision
Panel: Funding your way into the World of IoT	Innovations and opportunities in connected health	Panel: Smart logistics for freight and fleet management	Keynote Panel: The next generation of connected cars and vehicles	Case Study: Using an algorithm to figure out what luxury customers really want	Build a better bot with Analytics & Big Data	Panel: Peer to peer payments – the blockchain mobile payments revolution	Panel: Smart Contract Management & Innovation
Start Up Success Story - Yodiwo	Hearables – the next generation of IoT health wearable?	IoT and Remote Container Management	Case Study: Arity	Panel: The Revolutionising of Customer Experiences through AI	Chatbots – From Chat To Full-Serve Experience	Case Study 3	Keynote: Insurance: Understanding the opportunities and threats for Blockchain in the Insurance industry
Start Up Success Story - Zerynth	Networking Break	Networking Break	Networking Break	Examining AI uses in Banking & Finance Services	Panel: Inter Bot Communication – get ahead of the game	Keynote: Red Belly, the unforkable blockchain	Case Study: Gospel technology – Enterprise Trust Fabric
Start Up Success Story 3	Networking Break	Networking Break	Networking Break	Networking Break	Networking Break	Case Study 4	Networking Break
Networking Break	Panel: Raising the bar – can IoT improve our fitness and performance?	Managing energy usage in Enterprise using IoT	Keynote: The Smart Citizen's role in creating a Smart City	Keynote: The Rise of the Virtual Assistant	Afternoon Keynote: AI and the future of drones	Panel: Cryptocurrency wallets	Panel: Blockchain in non-governmental organisations
Keynote Panel: Monetisation – Unlocking the revenue potential	Case Study: Learning from the Players	Panel: Smart buildings and lighting	Panel: Driving investment in the Connected City	Panel: Predictive analytics for customer recommendations	Killer Robots, Smart Cyberweapons, and Supercharged Fake News: When artificial intelligence meets national	The Next Generation of Identity Verification Using the Blockchain	Case study: Mærsk and the revolution in container shipping
Consumer Protection – Your Questions answered	Networking Break	Networking Break	Networking Break	AI – Building Trust, Loyalty and Relationships	Start up Showcase – Bots & VA	Panel: Identity management and verification on blockchain	Panel: Building partnerships to help grow financial services blockchain solutions
Networking Break	Keynote Panel: How is the IoT shaping consumer-brand relationships in retail and beyond?	Smart Farming – growing new business opportunities	Sustainable smart cities			Case study: DECENT – Future of Digital Rights Protection	Keynote: Humaniq: crypto-finance for the undocumented and unbanked
Panel: IoT architectures for interoperability	Case Study: Office as a Connected Device	Panel: Agriculture in IOT – the future of the smart farm	Panel: Connected Spaces – using IoT for public safety and increased quality of life				Panel: What does the future hold for Blockchain technology – where do we think we will be in 2030?
Managing IoT devices
